UAV World 2008 Become an exhibitor!

Dear potential exhibitor of UAV World,

We kindly invite you to exhibit at UAV World 2008. The first UAV World in 2007 was a great success. The exhibitors emphasized the good concept of UAV World, an arena with exhibition, conference and an obstacle course for flights. The in-depth technical discussions in a high-class and personal atmosphere were also major factors that UAV World had a pleasing response. In 2008, UAV World will be further developed and expanded. We expect 50 exhibitors from 25 nations. Take part in the successful development of UAV World and exhibit at UAV World 2008. With UAV World 2008, we aim to support the UAV industry, manufacturers and suppliers, universities and institutions in their work and to bring forward

the application of drones in the military as well as in the civil field. Also in 2008, the UAV World should be a special highlight of AIRTEC, with a top-class international conference and a flight competition of micro drones with new tasks. Due to the good infrastructural environment of the Exhibition Center Frankfurt, the central location as well as the individual atmosphere, UAV World will become again a special event, which you should not miss. We look forward to your exhibitors' participation.

DIANA SCHNABEL President / CEO

Federal Office of Defense Technology
and Procurement
WULF HAUSEN
Project Director Unmanned Air Vehicles

**Bundesamt für
Wehrtechnik und Beschaffung**

"From our perspective as the project group in the BWB responsible for unmanned aerial vehicles, we view the AIRTEC 2007 event in a positive light. The topic of "unmanned aerial vehicles" in conjunction with the UAV World conference and the flying competition for micro drones was very well received. The consistently good organisation and smooth execution of the event was a major contributory factor towards its success."

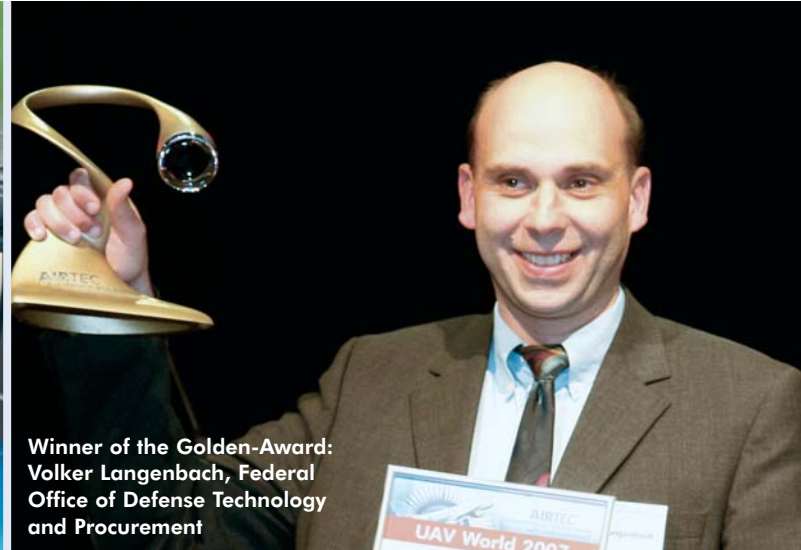

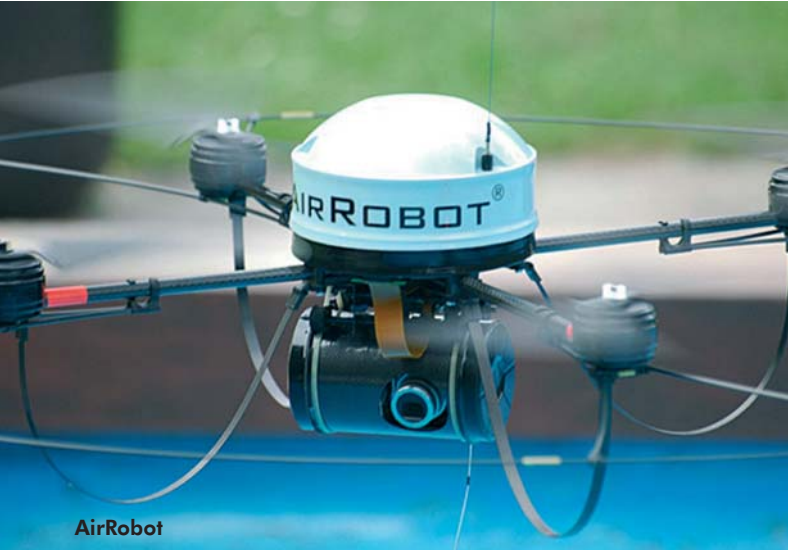

Diehl BGT Defence GmbH & Co. KG
MANFRED LEHNIGK
Productmanager Unmanned Systems Air

„For the special field of sensors the UAV World was an excellent supplement and gain at AIRTEC 2007. It was possible, by the use of synergies, to receive information about new technologies of components together with current developments in the UAV industry. This combination has not existed before in this way and with this the growing market UAV technics has been paid attention in an appropriate way. That is why the UAV World can be regarded to as very successful and should be find a fixed place in the calendar.“

Become part of UAV World 2008.

Review 2007 First UAV World: A success

UAV World was well received

The first UAV World convinced its participants. The unique atmosphere of the UAV World Arena made it easy to initiate new contacts, to expand existing contacts and partnerships, to hold technical discussions and exchange

Participants		
	Total	Countries
Exhibitors	22	6
Conference Participants	103	11

Participants from 12 countries		
 Germany	 Finland	 France
 Great Britain	 Israel	 Italy
 Japan	 Netherlands	 Romania
 Switzerland	 Slovenia	 Spain

information. It is, therefore understandable, that the participants were highly satisfied with the first UAV World.

Award Ceremony Flight Competition of Micro Drones

Golden-Award:

VOLKER LANGENBACH with AirRobot AR 100,
Federal Office of Defense Technology and Procurement

Silver-Award:

HANS-CHRISTIAN STUBER with
VTOL-Plattform, SwissCopter AG

Bronze-Award:

The Bronze Award was shared by two participants:
DR. BERNHARD KEIDEL with Fancopter, EMT
Ingenieurgesellschaft, Dipl.-Ing. Hartmut Euer GmbH
BURKHARD WIGGERICH with AirRobot AR 100,
AirRobot

SwissCopter AG
HANS-CHRISTIAN STUBER
CEO

"The level of interest was unexpectedly high. An important aspect for us were the in-depth discussions with other exhibitors, with whom SwissCopter is now negotiating a possible collaboration. With the participation in the UAV flight competition, one of our products, the Peyelot could be presented for the first time to an audience, resulting in lots of positive reactions and concrete inquiries. The 2nd place in the competition topped our participation in the exhibition, which was important to us."

AirRobot
BURKHARD WIGGERICH
CEO

"For us as manufacturers of UAV systems, AIRTEC 2007 provided us with a very professional platform to present our products. We were able to use this opportunity to further develop existing contacts and to establish new ones. We have already made our participation in UAV World at AIRTEC 2008 a firm component of our planning."

Take advantage of the opportunities offered to you by this professional platform. UAV World 2008. Be part of it.

UAV World Exhibition 2008 Information for Exhibitors

The entire industry in one place

The exhibition area of the UAV World Arena provides you the possibility to present your products, technologies and expertise, to acquire new customers and suppliers and to establish closer bonds with existing partners.

Your benefits at UAV World

- Attractive common design in the UAV World Arena
- Individual presence within the joint area UAV World
- Turnkey stands: No appointment and supervision of contractors
- Benefit use of services in the joint area
- Use of the marketing and PR activities for UAV World

Participation fee for exhibitors in the UAV World Arena:

Stand space only: 259.- € / sqm + VAT

All-inclusive Package: 690.- € / sqm + VAT

| • 1 cabin | • daily stand cleaning |
| • 4 spots | • stand guarding |
| • carpet | • participation fee for the flight competition of micro drones |
| • 1 brochure rack | • fair hostess and catering service in the joint area |
| • 1 socket outlet | |
| • 1 electricity power supply 3 KW incl. wattage | |

Exhibitors

- Manufacturers
- Suppliers
- Scientific institutions
- Governmental authorities and organisations

Range of Exhibits

- HALE = High Altitude Long Endurance
- MALE = Medium Altitude Long Endurance
- Micro UAVs < 3 kg
- UAV 3 kg – 500 kg
- Controls
- Data Transmission
- Engines
- Sensors
- Structures, Materials
- Subcomponents
- Systems

EADS Deutschland GmbH

FRANZ BUCHER

Marketing & Sales Director UAV Systems

„I can assess the UAV World at AIRTEC 2007 positively. In particular, our expectations towards a high number of visits from customers and the possibilities to initiate contacts from agencies and users were fulfilled. The lectures and discussion possibilities were very interesting. The professional organisation and the smooth run of the event have contributed to the success of UAV World. The flight demonstrations of micro drones were an eye-catcher, especially for visitors and exhibitors, who have never dealt with UAVs before.“

Secure your stand space in the UAV World. Book your stand now. **Space is limited.**

UAV World Conference Important information exchange

Top-class and international

In the conference area the UAV World Conference takes place, where renowned experts from the industry, scientific institutions and governmental bodies meet and discuss current aspects and issues. Enlarge your knowledge about the latest developments and use the opportunity to exchange information and experience with participants and speakers.

Technical University Braunschweig

PROF. DR. - ING. PETER VÖRSMANN

Institute of Aero Space Systems

„UAV World has established itself. The combination of exhibition, conference and flight competition was very well received by the attendees. At UAV World, the participants could initiate a lot of new contacts and business relationships and discuss cooperation projects. AIRTEC 2007 ventured to position itself as partner for the UAV market. This has been strongly rewarded with the positive response from the participants. The next UAV World has been booked in the calendar of exhibitors, visitors and conference participants.“

Please visit www.airtec.aero, or phone +49 (0) 69 - 274 003 - 15 for Call for Paper information, program updates and registration information.

UAV DACH
**BERNHARD FREIHERR VON
BOTHMER**

„AIRTEC has opened its doors for UAS for the first time this year. UAV DACH used this opportunity to hold his quarterly meeting at the exhibition grounds. Due to the professional support, the meeting of UAV DACH turned out to be a success. At the UAV World Conference the attendees could obtain a good overview from expert lectures about the current position of UAS development in Germany and abroad. On top of this, the exhibition with exhibitors from the supply industry and others was a good forum for a lot of the company representatives of UAV DACH to hold business conversations with potential partners and suppliers.“

Sponsoring Opportunities

For the conference area and the flight competition we offer sponsoring packages providing you the excellent chance to present your company to an exclusive group of participants in a prominent way. Please contact us – the sponsoring opportunities are limited.

UAV World Award Ceremony 2007

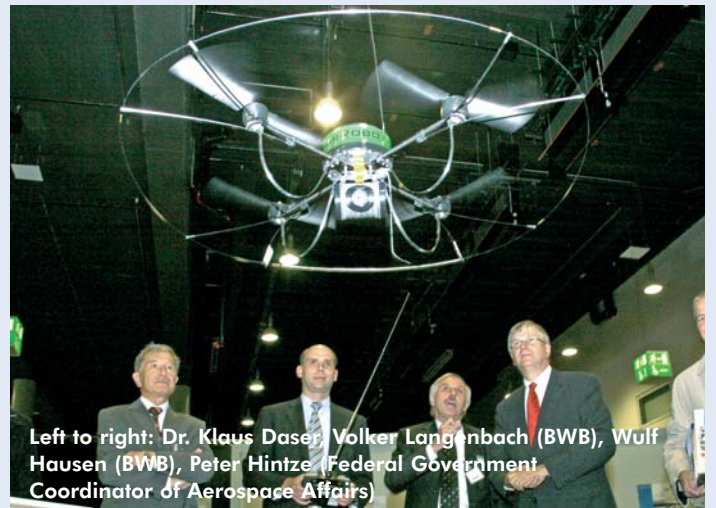

UAV World Arena

Flight Competition of Micro Drones UAV World Award 2008

Excitement and High-tech

One highlight at UAV World 2008 will be again the flight competition of micro drones, in which the participants have to fulfil different tasks on the challenging obstacle course. Companies, scientific institutions and organisations can enter the contest.

For exhibitors at UAV World, participation in the flight competition is already included in the exhibition fee. Non-exhibitors will be charged a participation fee of € 490.- + VAT

The World of UAV united in one arena

Future Technologies. This word characterizes the market of UAV, Unmanned Aerial Vehicles. At UAV World this innovative topic is presented in a focused way, in a special combination of exhibition, conference and flight competition

of micro drones. It provides manufacturers of UAV, their suppliers and equipment suppliers, scientists and users an international presentation and communication platform and encourages and supports the exchange of information. This opens up new business, contact and cooperation possibilities.
